

# Algorithmic-Enabled Cryptocurrency Mining

# Problem

There is a surplus of cryptocurrencies that are being developed, without adequate mining power to support the projects.

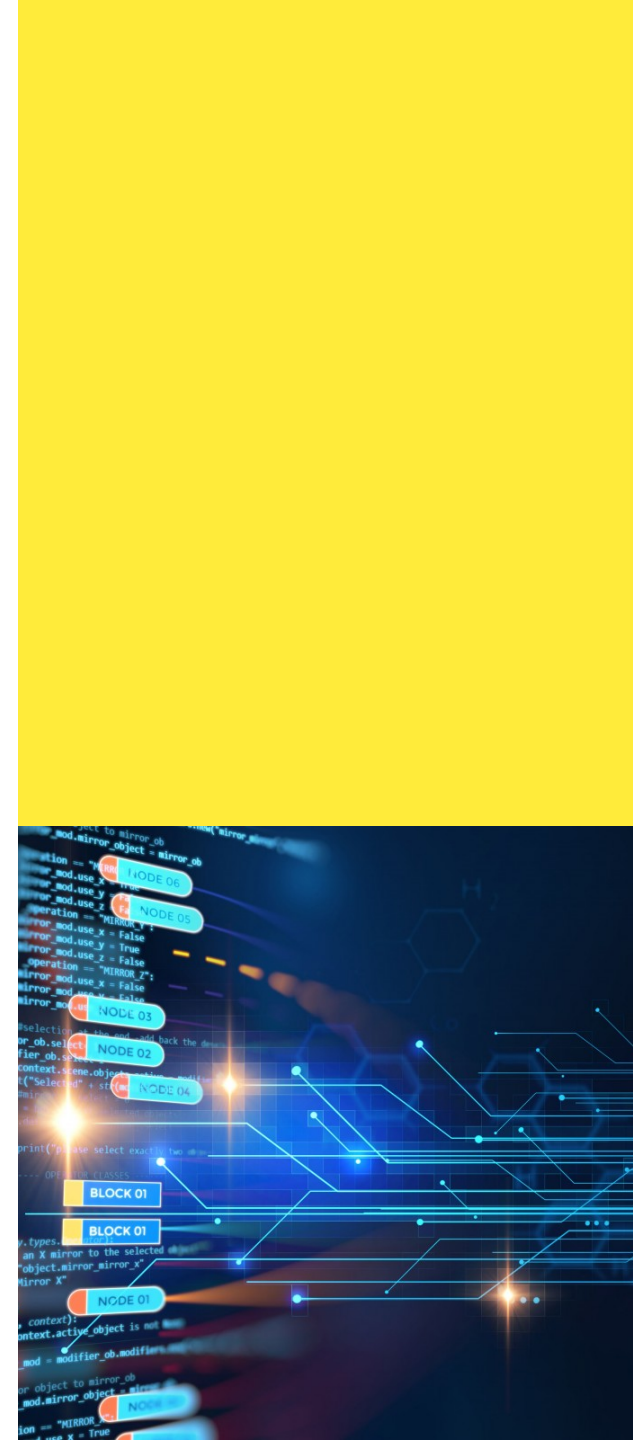

# Solution

State-of-the-Art  
cryptocurrency mining  
operations.

# Our Vision

Build out the infrastructure for CryptoFarm7 into a world-class cryptocurrency mining operation located in the U.S.A. to provide the supply infrastructure for the exponential demand curve in this emerging market vertical.

# TimeLine

2016

## **CryptoFarm7 Founded**

The operation started as a commercial cryptocurrency mining farm.

2017

## **Crypto Market Explodes**

Mainstream adoption of cryptocurrency and new token projects drives the price to record levels generating robust returns for CryptoFarm7.

2018

## **Plan For Growth**

CryptoFarm7 further proved its business model and developed plans for growth to capture additional market share.

TimeLine  
2016 - 2018

Invest in Infrastructure

# Business Model

Mine Cryptocurrency

Generate Financial Returns

# Price Opportunity

The value of the crypto market has declined making equipment for mining significantly cheaper. Building the infrastructure at discounted rates will allow for quicker ROI once the market value increases.

# Competitors

Sells/Rents Hash  
to retail customers

BITMAIN

Focused on  
Bitcoin only

CryptoFarm7 keeps all coins  
mined by its facilities

CryptoFarm7 mines a large  
portfolio of cryptocurrencies

# Unique Value

## Timing

The bear market over the last year is gearing up for a significant uptrend as institutional investment and user adoption continues to grow

## Discounted Pricing

The current market is significantly cheaper than it has been in the last year, which allows CryptoFarm7 to build infrastructure at a discount to capture a better ROI

## Upgradeable Equipment

CryptoFarm7 will be implementing equipment that allows for easy and affordable upgrades compared to competitive mining operations that need to purchase new infrastructure to compete

# Crypto Mining Market

Over the next 7 years, this market will register a ~30% CAGR in terms of revenue.
